

Chinawhite at Cartier International Polo

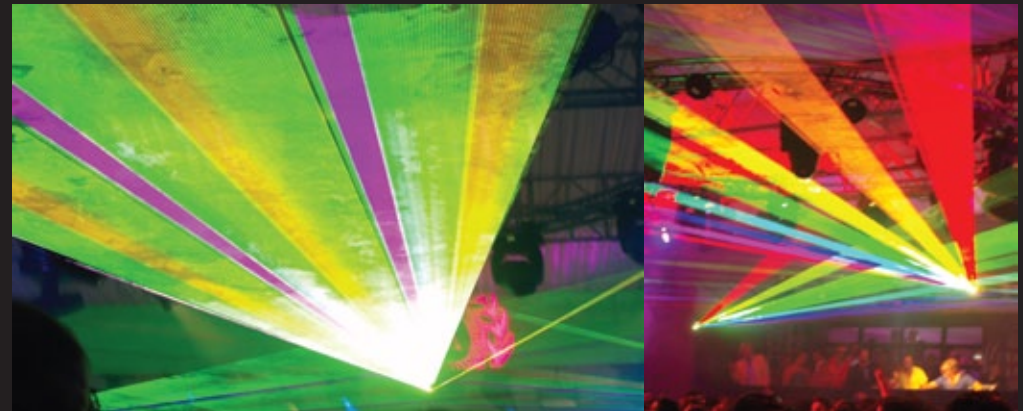

The **Chinawhite** enclosure became the hub of entertainment, after the day's Polo events. LM Productions were commissioned to program a colourful laser beam show, at this high-profile event.

Revellers partied late into the night to Swedish House Mafia's Axwell's live DJ set. The set was enlivened by a synchronised laser show, programmed in real-time by LM Productions.

Five high powered solid state OPSL lasers, four full colour 22w lasers and a 24w laser came together to provide a symphony of colour to light up the prestigious ground of Windsor Great Park.

LM Productions in conjunction with Lamba PLC, travelled to Windsor to the glories and gaiety of this year's Cartier International Polo Summer Gathering.

This year's event was extra special as it celebrated the 100th year of The Hurlingham Polo Association's Coronation Cup. One of the most glamorous events on the social calendar attended by celebrities and royals.
